Study Title:	<u>O</u> ptimal <u>P</u> ersonalised <u>T</u> reatment of early breast cancer using <u>M</u> ulti-parameter <u>A</u> nalysis: Qualitative Recruitment Study
Study Number:	ISRCTN42400492 IRAS ref. 95626
Patient Initials:	
Patient Study Number:	

Please initial box:

I confirm the patient verbally consented to having their appointment audio-recorded for training and research purposes

Please provide the patient with the OPTIMA Qualitative Recruitment Study Patient Information Sheet.

If the patient subsequently signs the "Audio-recording of consultations" Consent Form, contact the Warwick Clinical Trials Unit to receive the patient's study number.

Should the patient decide not to sign the "Audio-recording of consultations" Consent Form all recordings must be destroyed. No recordings may be transmitted to the University of Bristol unless the patient has signed the consent form
