Randomising a patient

After receiving consent (initial remote consent, or full written consent), you should:

1. Complete an **Eligibility Form (CRF 1)** to confirm the patient is eligible for the trial
2. Complete a **Randomisation Form (CRF 2)** to confirm the randomisation information
3. Telephone Warwick Clinical Trials Unit Randomisation Service on **02476 150402**

The Randomisation officer will ask you to confirm the information documented on the Randomisation Form and **at the end of the call you will be given your patients 4-digit Participant Trial Number (TNO)**

* **Remember, the Trials Unit will be closed on**

**Thursday 2nd June – Friday 3rd June
for the Jubilee Weekend**

- * The Randomisation service and Central Lab will also be closed during this time, reopening on Monday 6th June at 09:00
- * There will be no processing run this week, so the next allocations will be expected on Monday 13th June.

Form completion guidance

When completing any paperwork for OPTIMA, check if there is any **completion guidance** within the document to help you... this is **normally located on the back page of the case report form (CRF)**.

On most CRFs (including the **Tissue Transit form**) we have provided some guidance which will hopefully help reduce the number of queries. Do get in touch if you need any help with any of the OPTIMA paperwork.

We are always happy to assist!

OPTIMA Patient Animation

Have you watched the OPTIMA Animated Patient Video?
Have you invited your patients to watch it?
Have you shared it with your surgical colleagues?

Only a click away [OPTIMA \(optimabreaststudy.com\)](http://OPTIMA (optimabreaststudy.com))

Working with patient advocates, we've designed the animation to accompany the full written Patient Information Sheet.
