

Newsletter February 2023

Optimal Personalised Treatment of early breast cancer using Multi-parameter Analysis

Recruitment update:

In January, **60 new participants** were recruited into OPTIMA.

Total recruitment to date: 3632

What Sample should I send for OPTIMA?

We asked the Central Lab what the most common queries are and they said:

- ⇒ Low tumour content in the block provided
- ⇒ Missing reports not sent with the block

LOW TUMOUR CONTENT

The Prosigna test requires minimum tumour cellularity of 10% with the total surface area of 100mm². The block selected for submission should contain sufficient tumour to allow more than one attempt at testing.

Further information on tumour block selection can be found in the site sample collection SOP.

MISSING PAPERWORK

Please ensure that **ALL** reports relating to the patient are sent with the tumour block (core biopsy, all surgery reports, axillary node clearance reports).

The core biopsy report includes critical eligibility information for OPTIMA, hence why we request this....

...The surgery reports include critical information required for the Prosigna test, hence why we request this.

We cannot allocate treatment without receiving all of the necessary reports, so this can result in delays to treatment allocations.

If your local pathologists or trial investigators need any help selecting a suitable sample, please do not hesitate to contact the CTU—
We are always happy to help!

OPTIMA Data Return

Please remember to return all completed CRFs to Warwick CTU via post, or email. You do not need to send these via email if they have already been posted.

Annual Follow up (AFU) forms should be completed each year on the anniversary of Trial Entry, for both OPTIMA Main and OPTIMA prelim patients.

NB: AFU for OPTIMA is for 10 years post Trial Entry.

REMINDER

We are **not** permitted to receive patient identifiable data.

Please do not send any patient identifiable data (this includes consent forms) to WCTU or HSL-AD.

OPTIMA INVESTIGATOR MEETING 2023

Don't forget to register for the next Investigator meeting:

Tuesday 25th April 2023

The Royal Institution, London

The most recent draft Programme has been circulated via email and you can register for the event via the link below:
