

Newsletter July 2023

Optimal Personalised Treatment of early breast cancer using Multi-parameter Analysis

Recruitment update:

In June, **45 new participants** were recruited into OPTIMA.

Total recruitment to date: 3843

OPTIMA Main - 3431 participants

OPTIMA prelim - 412 participants

OPTIMA International

The astute of you may have noticed a few sneaky photos of a strange Koala knocking about on our twitter, and may be wondering what that's all about...

We're now in the final stages of set up in Australia and New Zealand (ANZ) and can't wait to have them aboard!

Multiparameter testing is not available in ANZ so were extremely excited to give these patients the opportunity to take part in OPTIMA.

You can find the Australian press release on our twitter page now—[check it out!](#)

Investigator Site File Update—2023-07-20

We recently sent sites updated CRFs as part of an ISF update.

Please can you;

1. Superseded the updated documents in your ISF.
2. Complete the new OPTIMA ISF Version Control Checklist and return this to us.
3. You should start using the new documents as soon as possible.

Please let us know if your site has NOT received this email.

PATHOLOGY REPORTS

A friendly reminder to send through copies of **all** pathology reports. This will include:

- Core biopsy report
- Excision report
- Axillary procedures

We require copies of all reports to confirm eligibility. Requesting copies of additional reports may cause delays.
